Creating Press Job Options through Adobe Acrobat Distiller 7.x

This feature allows you to save time and reduce the probability of printing-related errors by saving and applying frequently used settings from the Job Options menus. To create PDF files for output, use the following.

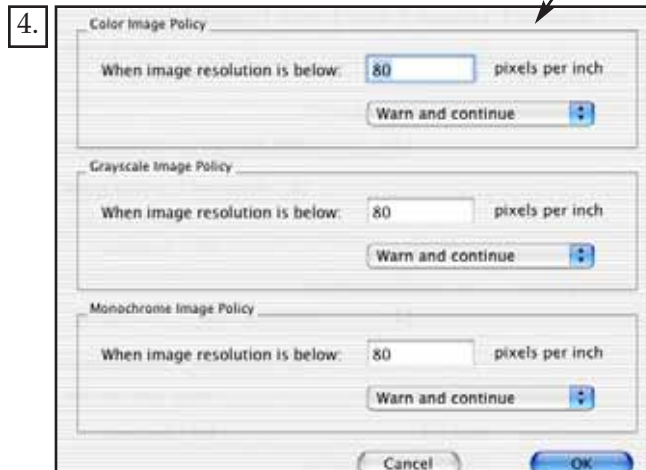

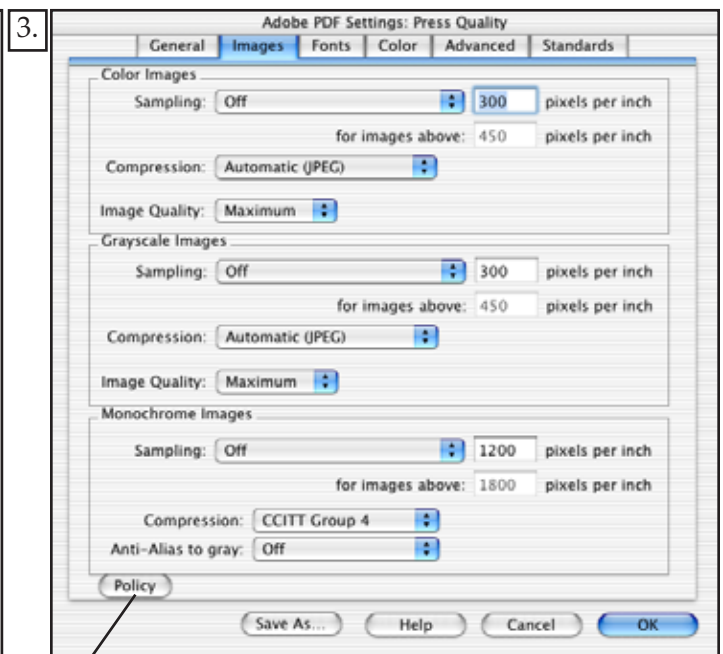

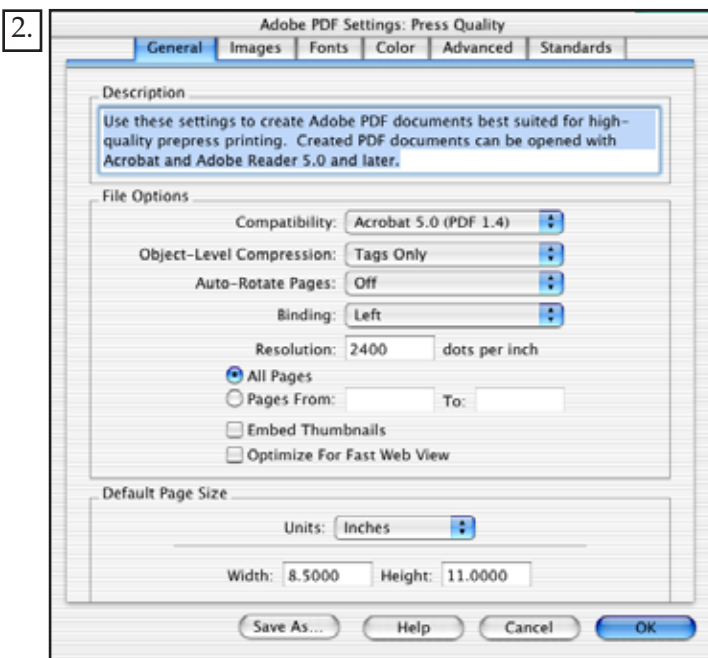

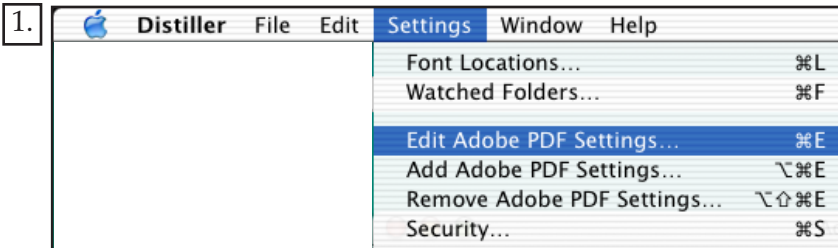

Under **Settings** select **Edit Adobe PDF Settings**. The Adobe PDF Settings box will open as shown in **box 1**.

Click the **General** tab. Make selections as shown in **box 2**.

Click the **Images** tab. Make selections as shown in **box 3**.

Click the Policy button. Make selections as shown in **box 4**.
